

BASSARA™ E-SERIES

High Launch Mid to High Spin

The BASSARA™ Ultra-lightweight wood shaft series utilized the latest innovations in design and materials to produce an ultra-lightweight shaft with unmatched performance, stability, and feel. In 2008 and 2009 we introduced the original BASSARA™ Falcon and Hawk Series, in 2015 We introduced the next evolution in this series, the BASSARA™ E-Series.

Based on the original Falcon bend, we have modified this series to work better with today's larger and lower spinning head designs.

Lightweight, yet still high-performance.
