

TENSEI™ AV RAW WHITE

LOW LAUNCH, LOW SPIN

TENSEI™ AV RAW Series refines the player-revered performance of TENSEI™ AV Blue and establishes a full range of fitting options. All three feature a RAW finish that reveals the Aluminum Vapor (AV) Coated Weave in the butt section, a visible cue of the added stability this unique weave provides. Produced by coating an extremely thin and tight weave with aluminum vapor in a vacuum-sealed chamber, the AV Coated Weave reduces shaft ovaling and improve energy transfer.

TENSEI™ AV RAW White blends modern performance with a stiff-tip, low-launch profile. The RAW finish reveals the Aluminum Vapor (AV) Coated Weave in the butt section, a visible cue of the added stability this unique weave provides. Power transfers straight from the hands through the ball for low, piercing flight.

Technologies: Low Resin Content (L.R.C.) Prepreg, Aluminum Vapor (AV) Coated Weave, Ultra-Lightweight Materials
