

Diamana™ Thump Hybrid 2ND GEN

Mitsubishi Chemical introduces the second generation Diamana™ Thump™ Hybrid shaft. Designed for the stronger player who wants the accuracy, stability and weight of steel shafts, but is also desires enhanced feel and distance. The second generation Diamana™ Thump™ Hybrid is ideal for utility club weight and dispersion. Lower torque coupled with a MID/HIGH kick point produce a stable, lower, ballistic like trajectory preferred by stronger players.
