

Kai'li™ White

LOW LAUNCH, LOW SPIN

WOOD SHAFTS

The Kai'li™ White shaft derives its name from a blend of words that evoke the power of the ocean – the perfect moniker for an unprecedented shaft that explores new depths of strength and performance. Kai'li™ White features a taper butt design – the first ever in a whiteboard profile – for a feeling of smooth power in the hands. Designed to keep torque low for stable flight and tight dispersion, Kai'li shafts feature Super Low Resin Content prepreg in the torque core for maximum feel, and are fortified with Mitsubishi Chemical's flagship MR70™ material to retain stability. A powerful combination that proves you don't have to sacrifice flight for feel. A true power play, Kai'li is everything the modern golf athlete desires.

SHAFT SPECIFICATIONS

Shaft Name	Flex	Length (in)	Weight (g)	Tip OD (in)	Tip (in)	Butt OD(in)	Torque (deg)	Kick Pt.
Kai'li™ White 60	R	46	65	0.335	3	0.63	4.2	High
Kai'li™ White 60	S	46	68	0.335	3	0.63	4.1	High
Kai'li™ White 60	X	46	69	0.335	3	0.63	4.1	High
Kai'li™ White 60	TX	46	69	0.335	3	0.63	3.2	High
