

# TENSEI™ CK ORANGE

## Mid Launch and Low Spin

The TENSEI™ CK Orange builds off of MCA GOLF's classic, smooth bend profile and incorporates the same Carbon Fiber/DuPont™ Kevlar® (CK) weave found in the butt-section of all TENSEI™ CK shafts – providing enhanced stability and maximum feel, in an extremely versatile design.

Unlike other shafts TENSEI™ CK Series family, TENSEI™ CK Orange has a unique counter balanced design for player's looking to fine-tune their golf club performance.
