

# TENSEI™ AV BLUE AM(2) IRONS

Low Launch/Mid-Low Spin

TENSEI™ AV White AM(2) Iron Series are the heaviest and lowest launching option for stronger players. They feature Aluminum Vapor (AV) coated fibers in the shaft's mid-section to produce outstanding stability from a thinner, tighter weave. This is combined with a 2g ascension that runs from the longer irons through the scoring clubs. This gradual increase in weight promotes a smooth progression from faster-swinging, easier-launching long irons to more consistent and controlled short irons.

TENSEI™ AV White AM(2) is best for stronger players who prefer a heavier shaft and value the versatility of a series that blends longer, easier-launching long irons with consistent, precise scoring clubs.
