

Diamana™ TB

MID LAUNCH, MID SPIN

WOOD SHAFTS

Designed for the dedicated fitting experience, Diamana™ TB-Series shafts feature minimal variance in butt OD, weight and balance point throughout the entire range – from 40R2 to 80TX. This minimizes any change in feel as a player shifts between options, allowing a fitter to focus on finding the perfect weight and flex pairing for maximum performance. Along with Mitsubishi Chemical's most advanced resin system, the TB Series is the ideal amalgam of superior fit and superior performance in a smoother, more stable blue-board profile.
